Available For Order: Warn Industries New Elite Series Front Bumpers for Jeep JL Wrangler

Clackamas, OR (6/5/18) – Warn Industries is excited to announce that new Elite Series, the most rugged line of front bumpers available for the Jeep JL Wrangler, is now available for distributor purchase.

The new WARN Elite Bumpers for the JL are designed, tested, and built in Clackamas Oregon and certified to withstand an industry-leading 12,000 lbs. of pulling force without deformation. They have integrated off-road jack lifting points and shackle-mounting tabs for additional off-road recovery options. All WARN® bumpers undergo rigorous field testing and lab pull testing to ensure rigidity in the most abusive conditions.

For the ultimate in corrosion protection, these bumpers wear a durable flat-black powdercoated finish that undergoes a five-step pre-treatment process featuring zirconium nanotechnology, and are engineered to withstand a 408 hours of salt spray testing.

When buyers are ready to mount a WARN winch, they can be assured this bumper is up to the task. Warn has engineered the bumper to position the winch in a manner so the engine gets maximum airflow. Speaking of winches, the bumper will accommodate the WARN ZEON, ZEON Platinum, VR, XD9, XD9i, 9.0Rc, and 9.5xp models.

The bumper comes in four configurations:

- Full-Width without grille guard tube
- Full-Width with grille guard tube
- Stubby with grille guard tube
- Stubby without grille guard tube

The Full-Width Elite Bumper will clear 37" tires with only a 2" lift and factory wheel offset. The Full-Width version also includes built-in light ports to mount OE or aftermarket fog lights.

The narrower Stubby version provides maximum off-road performance and tire clearance, and has all the features of the full-width but is designed for hardcore off-roaders. This bumper also allows for mounting driving lights above the bumper.

Additionally, Warn is offering a durable skid plate for the JL that compliments both bumpers.

The UMP price starts at \$599.99 for the Elite Stubby without grille guard tubes, and ranges to \$879.99 for the Elite Full-Width with the grille guard tube. The Skid Plate Kit has a UMP price of \$155.00.

About Warn Industries

Warn Industries is the world's most recognized brand in off-road products such as hub locks and vehicle recovery winches. The company designs, manufactures and markets a full line of off-road equipment and accessories that enhance the performance of four-wheel-drive and powersport vehicles.
